Target version:	1.2.3			
Resolution:	Fixed		**Affected version:**	

Description

In Redmine 1.2.0 or later any user can edit any time entries via context menu.
Example url: http://redmine/projects/testproject/time_entries and click right mouse button on any time entries.
img1.png - user have permission to edit any time entries
img2-4.png - user edit time entries without permission on it.

As you can see, user with permissions have icons for edit time report, but user without permissions can do this via context menu anyway.

PS: I set high priority to ticket. I think, this serious defect?

- File redmine.rb.patch added

I find some problem after apply the patch - when user tried to update ticket(e.g. nuber_of_ticket/edit), he dont have access to "Log time".
It fix that problem.

#12 - 2011-11-26 13:01 - Jean-Philippe Lang

I don't know what this patch is supposed to fix but :log_time should not allow the user to edit time entries.
I fixed a last point in [r7924](r7924) which may be related to your fix.

#13 - 2011-12-10 13:05 - Jean-Philippe Lang
