Description

Now, issues have start and due dates. A project has start and due dates derived from its earliest and latest issues.

I suggest to add extra start and due date fields to parent project. It should be shown in project overview and eg. in Gantt.

But it should behave according feature request [#9413](#). When hard dates are not checked, the behaviour would be the same as now. When they are checked, the dates would be hard.

Sorry if I submitted a duplicated issue. It is very hard to search in those 2.000+ feature requests.

History

Looks very similar to [#5451](#)?
