

## Redmine - Defect #9436

### Issue update validation

2011-10-18 12:11 - Manuel Dalprà

<b>Status:</b>	New	<b>Start date:</b>	2011-10-18
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues workflow	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	1.1.2
<b>Resolution:</b>			
<b>Description</b>			
<p>How to reproduce:</p> <ul style="list-style-type: none"><li>- Update an existing issue</li><li>- Fill in all the fields except for "Activity"</li><li>- The system now gives two errors: one regarding the missing activity (correct) and one regarding the hours taken to fix the issue.</li></ul> <p>The bug basically adds the decimals when a validation goes wrong, so even if one fixes the other problem (the one regarding the missing activity) the system still says that the time is not correct.</p>			

### History

#### #1 - 2011-10-18 14:18 - Etienne Massip

Can't reproduce with trunk and it seems there has not been any changes since version:1.1.2.

I see that RM adds decimals but I don't get any validation error for hour field, could you please give more details?

BTW, you're not talking about issue update but time logging on an issue, right?
