

Redmine - Defect #9444

Can't connect to LDAP after restart

2011-10-21 09:07 - Szymon Nowak

Status:	Closed	Start date:	2011-10-21
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	LDAP	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
<p>I'm using BitNami Stack so i'll post this issue also there.</p> <p>After i'll restart all services (Redmine, Apache, MySql) i can't log in via LDAP authentication. When i'll log in as local administrator and try to test connection to LDAP in Administration tab, I've got LDAP error (cannot' connect to server). After restarting redmine and mySQL few times, everything dissapears.</p> <p>Any idea how to deal with this?</p> <p>Windows Server 2008 R2 x64, BitNami Stack, Redmine 1.2.1</p>
