Redmine - Defect #9474

Wiki comment can't be added or edited if you don't touch the page

2011-10-26 09:20 - Babbo Maria

Status:	Closed		**Start date:**	2011-10-26
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Wiki		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	1.2.1

Description

The problem is:

1) Create/Edit the wiki page and <u>don't insert any comment in it</u>
2) Go to edit, or annotate edit to reedit the wiki and change only the comment.
3) The comment will never be inserted until you change also the page.

The main problem in this flow is that you can't change an old wrong comment.
This should be done in annotate view where you can see old revision.
Another problem is that you can't add a comment to an old version lately.

- database version: 5.1.41-3ubuntu12.10
- i18n (0.4.2)
- rack (1.1.1, 1.1.0, 1.0.1)
- rails (2.3.11, 2.3.8)
- rake (0.8.7)
- rubygems-update (1.8.10, 1.6.2)
- mnysql 2.8.1
- Redmine 1.2.1.stable.7481 (MySQL)
- SCM
    - Mercurial Distributed SCM (version 1.9.1)
    - SVN, version 1.6.6 (r40053)

Yes i confirm but i havn't find that issue when i have used Search.

Sorry!

#3 - 2011-10-26 15:25 - Etienne Massip

- Status changed from New to Closed

- Resolution set to Duplicate

Thanks.
