

Redmine - Defect #95

Mantis importer - field widths

2007-08-20 16:55 - Damien McKenna

Status:	Closed	Start date:	
Priority:	Normal	Due date:

Target version:		Affected version:	
Resolution:			
Description			
Mantis allowed for longer widths than RedMine for some text fields, e.g. issue category title.			
To fix issue categories I changed line 291 to have this at the end: category.category[0, 30]			

History

#1 - 2007-08-20 17:24 - Damien McKenna

Is there a way to do this using ActiveRecord calls instead of
hardcoding it? E.g.
(pseudocode)
category.category[1, IssueCategory.__fields[:name].__width]

#2 - 2007-08-25 11:01 - Jean-Philippe Lang

Hi Damien,

I committed your fix (rev 659).

Is there a way to do this using ActiveRecord calls instead

of hardcoding it?

This code seems to work:
IssueCategory.columns_hash['name'].limit
It would be much cleaner to use it :-)
