Target version:				
Resolution:	Duplicate		**Affected version:**	

Description

I've just migrated to the 1.3-stable branch (Redmine 1.3.0.stable.8106 (MySQL)) and I'm experiencing the following issue: I can see issues from other projects inside a project if I change the tab from Gantt to Issues, but select a custom query before change. The tab switches ok, but the result is not filtered by project.

The following steps reproduce the problem.

- Create a custom query that matches tickets in more than one project (Mine is: status=open, assignee=<me>, %done<=90)
- Make sure to have issues that matches your query in more than one project, and make sure to fill the dates to allow this issues to appear in gantt.
- Open the issues tab inside one of the projects
- Click 'show all issues' in case you have a custom query selected
- Click your custom query
- Change to Gantt tab
- You should see issues for other projects inside the gantt

You can reproduce going in Gantt first, just change the order of tabs visit and clear any custom query using 'show all issues' before start.

It seems that redmine forgets the current project when the tab is changed. If you click 'apply' or reselect the custom query the problem does not occur again.

I'm puttinf devel as affected version because I couldn't reproduce on demo.redmine.org, so I'm assuming that it's specific to 1.3.

Following my environment:

```
Ruby version            1.8.6 (x86_64-linux)
RubyGems version        1.3.7
Rack version            1.1
Rails version           2.3.14
Active Record version   2.3.14
Active Resource version 2.3.14
Action Mailer version   2.3.14
Active Support version  2.3.14
Application root         /opt/redmine/redmine-1.3
Environment             production
Database adapter         mysql
Database schema version  20110902000000
```

Is duplicate of Redmine - Defect #9738: Setting of cross-project custom query...   **Closed**

History

#1 - 2011-12-07 14:06 - Bruno Medeiros

I think it's related to #9738, even duplicates it. This is a little different bug, but I think solution will be the same.

#2 - 2011-12-07 22:36 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Duplicate

Indeed, it's the same. Fixed in [r8113](#).
