Target version:			
Resolution:	Fixed	**Affected version:**	

Description

I just updated trunk code.
when I run the command in a clean db.

```
rake db:migrate RAILS_ENV="production"
```

I get the following error

```
==  AddRolePosition: migrating ================================================
-- add_column(:roles, :position, :integer, {:default=>1})
   -> 0.3130s
rake aborted!
An error has occurred, all later migrations canceled:

Mysql::Error: You can't specify target table 'roles' for update in FROM clause: UPDATE `roles` SET
 position = (SELECT COUNT(*) FROM roles r WHERE r.id < id) + 1

Tasks: TOP => db:migrate
```

Env info

```
About your application's environment
Ruby version            1.8.7 (i486-linux)
RubyGems version        1.3.7
Rack version            1.1.2
Rails version           2.3.14
Active Record version   2.3.14
Active Resource version 2.3.14
Action Mailer version   2.3.14
Active Support version  2.3.14
Application root         /var/www/redmine
Environment             production
Database adapter        mysql
Database schema version 19
```

thanks

Associated revisions

Revision 8213 - 2011-12-14 23:24 - Jean-Philippe Lang

Restores migration broken by r8182 and removes default scope on Role (#9800).

Please see a similar error here : http://www.redmine.org/boards/2/topics/27969?r=27994

#2 - 2011-12-14 23:25 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Fixed

Fixed in [r8213](). You'll have to recreate your database.
