Category:	Time tracking	Estimated time:	0.00 hour
Target version:			
Resolution:			

Description

I see no way to specify the activity in the commit messages when recording spent time.

It is defaulted to Developpment but sometimes it could be usefull to change it per commit.

Something like

```
Add new test to reproduce bug #1234.
```

```
* t/issue/1234.t: Test something
```

```
Refs: #1234 @25m ?Qualification
```

Or

```
Improve pod coverage
```

```
* lib/ACME/Foo.pm: Documentation of ACME::Foo->boo().
```

```
Refs: #4321 @45m ?Documentation
```

The '?' character may (should?) be configurable.

Regards.
