

Redmine - Defect #9825

Non-Latin1 characters in project name are stored as '?'

2011-12-16 11:03 - Hartmut Niemann

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Project settings	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
<p>I copy-and-pasted a russian string ('РЖД' for the russian railway rzd) from a web page into the project name field, it was displayed correctly. After hitting "save" it was stored and displayed as ???. The same happend in the project description field.</p> <p>It happens even if I switch the display language from german to russian.</p> <p>Browsers: IE 8.0.6001.18702. Firefox portable 3.6.7</p> <p>Redmine is 1.2.1, as far as I know (i am not the administrator)</p>

Check your DB default encoding and your tables/text columns encoding?

#2 - 2011-12-16 14:16 - Hartmut Niemann

- Status changed from New to Resolved

I checked with the demo server
<http://demo.redmine.org/projects/encodingtest>
and it works there, therefore maked resolved. (Should have done that before posting.)
It seems to be a configuration issue in our system,
thank you Etienne for the hint.

#3 - 2011-12-16 14:24 - Etienne Massip

- Status changed from Resolved to Closed

- Resolution set to Invalid

No problem, glad I could help you.
