Description

In chinese, the gantt looks like
  before.PNG
But we want
  after.PNG
The problem cause by

```
<%= day_name(wday).first %>
```

The variants *day_names* and *abbr_day_names* setted in en.yml
  en.PNG
and in zh.yml
  zh.PNG
so **day_name(wday).first != abbr_day_name(wday)**
I changed the code, it works fine, and attach last.
