

Redmine - Defect #9860

Unable to use reposman.rb (XML received instead of JSON)

2011-12-22 14:04 - Ganael Laplanche

|--|----------|--------------------------|-----------|
| Status: | Closed | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | REST API | Estimated time: | 0.00 hour |
| Target version: | | Affected version: | 1.2.1 |
| Resolution: | Invalid | | |
| Description | | | |
| Hello, | | | |
| I am getting this error when trying to use reposman.rb : | | | |
| '<?xml version="1.0" ' not in JSON! | | | |
| If I try to get data manually from the following URL (used by the script) : | | | |
| https://my.redmine.site/sys/projects.json?key=XXX | | | |
| It retrieves XML instead of JSON data. | | | |
| The attached patch fixes the situation and is provided as an illustration (only, not as a proper fix as it forces reposman.rb to accept XML). | | | |
| FYI, Redmine is installed on a FreeBSD 8.1-RELEASE machine (amd64) and we use the following software versions : | | | |
| - redmine 1.2.1 | | | |
| - ruby18-gems-1.7.2 | | | |
| - rubygem-activemodel-3.1.3 | | | |
| - rubygem-activeresource-3.1.3 | | | |
| - rubygem-activesupport-3.1.3 | | | |

History

#1 - 2011-12-22 15:56 - Etienne Massip

- Status changed from New to Closed

- Resolution set to Invalid

The SysController is not part of the [Projects REST API](#) but only for use by Reposman; if you need to get projects manually in json format for a different use, go with the API.

By the way, the error you get must be due to the use of Rails 3 with Redmine 1.2 which doesn't support it (see [RedmineInstall](#)) and to a probable move of the format used by default by ActiveResource.

Lastly, it has already be fixed in trunk with [r7955](#).

#2 - 2011-12-22 16:37 - Ganael Laplanche

Thanks you for your answer !
