

Redmine - Defect #99

Update of time entry fails when issue has been moved to other project

2007-08-28 16:50 - Matthijs Dekker

Status: Closed	Start date:

Category:	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution:	

Description

When an issue has been moved to another project, it is no longer possible to edit the existing time entries linked to this issue.

Error message: Ã,Â« Issue Ã,Â» is invalid

Cause:
The project_id in the time_entries table still points to the previous project. Validation in in the TimeEntry model cancels the update, since the project_id does not match the issue.project_id.

Suggested fix:
When moving the issue to another project, also move the time entries to the new project.

Patch has been attached.

History

#1 - 2007-11-17 12:54 - Jean-Philippe Lang

Fixed in [r909](#).
