Description
In the repository view, branch names are truncated and there are two empty cells without a column title. I'm using Ruby 1.9.3-p6 and Rail 2.3.14 for Redmine r8535 with Sqlite 3.7.7.
Thank you in advance !

I was just about to report the same thing. This seems to be a problem with the new branch visualization feature (which is cool, BTW). All of the names are obscured in some way or another. Some of the history lines are obscured. See attached image (just for confirmation).
