Redmine - Defect #9996
configuration.yml in documentation, but redmine ask me to create email.yml
2012-01-13 22:57 - Artem Deykun

Description

documentation says, that it is need to create configuration.yml

http://www.redmine.org/projects/redmine/wiki/EmailConfiguration

I created:

production:
  
  email_delivery:
  
    delivery_method: :smtp
  
    smtp_settings:
      
      tls: true
      
      enable_starttls_auto: true
      
      address: "smtp.gmail.com"
      
      port: '587'
      
      domain: "smtp.gmail.com"
      
      authentication: :plain
      
      user_name: "***"

      password: "***"

But my redmine version 1.3.0 says:

Email delivery is not configured, and notifications are disabled.
Configure your SMTP server in /etc/redmine/<instance>/email.yml and restart the application to enable them.

Associated revisions

Revision 11980 - 2013-06-15 13:49 - Toshi MARUYAMA

replace "email.yml" to "configuration.yml" in pl.yml (#9996)

Revision 11981 - 2013-06-15 14:55 - Toshi MARUYAMA

Merged r11980 from trunk to 2.3-stable (#9996)

replace "email.yml" to "configuration.yml" in pl.yml.

History

#1 - 2012-01-13 23:19 - Etienne Massip

I guess you're not running Redmine 1.3.0, 1.3 really does not care about email.yml.
Please post details according to [[SubmittingBugs]].

#2 - 2012-01-14 10:39 - Jean-Philippe Lang

Are you using "fa" language?

#3 - 2013-06-11 00:14 - Filou Centrinov

- File pl.yml.patch added
- Category set to Translations

This message has to be anywhere in the translations. I checked all translations and only pl.yml still uses a wrong translation with "email.yml", like fa.yml does it about one year ago. Therefore we can close this issue after this patch was applied.

#4 - 2013-06-12 21:19 - Filou Centrinov

- Target version set to Candidate for next minor release

#5 - 2013-06-12 21:26 - Filou Centrinov

- Target version changed from Candidate for next minor release to 2.4.0

It's just a simple translation patch, therefore I hope you agree that this patch is warrantable to be fixed in the next release.

#6 - 2013-06-15 13:26 - Toshi MARUYAMA

- Target version changed from 2.4.0 to 2.3.2

#7 - 2013-07-11 19:49 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed
